what legislation our county requires. DEMOCRATIC candidates for the Presidency are appearing as thick as June bugs on a petate vine.

Two of the most astonished men in States have no use for a pariy that California to-day, are " Jim" Budd, holds not the good of the people, the who beat Page in the race for Con. whole people, within the measure of gress, and Page himself.

The system of county governmen of this Territory is sadly in need of overhauling, and we hope to see our coming legislature carefully and the railroad powers-that be-be awakhonestly apply itself to this matter so vital to the interests of the whole | put a road through this section of

First and foremost our Council- sure to come some time as the sun is man and Assemblymen should see sure to rise. It is needed now. The to fixing matters this winter for a great interests of the valley and its new court house for the county. The surroundings will lie comparatively youngest county in the Territory is dormant till a road does come. The far better off in that respect than we millions of wealth which are here

Our law-makers who go to Pres- of life which pervades our soil till Territory will be very great in the ing communities. A railroad will whites. It has been suspected by way of improved county government, secure but little more business and this is a subject which demands

extorting heavy tariff or refusing admission of American ve sels to Chinese ports. It is not improbable that the United States government will ultimately have a war on its han ls with all facilities of communication tions with China.

Ir Phoenix cannot do anything more toward safety from fire, might we at least have a fire bell where the night watchman could get to it conveniently. If the town can't afford a bell, there is one hanging in the Methodist Church, South, which we doubt not the society would gladly make available to the town for such purposes as suggested. The loud and long yells of fire this merning failed to bring more than a few persons out who were in the immediate vicinity.
